FROM A STUDENT TO COUNSELING AND PSYCHOLOGICAL SERVICES

“Thank you for running the Peer Health Advisors (PHA) program which has allowed me to explore my passion in accessibility of care during college.”
Dear Fellow Auxiliary Members,

Almost 100 years ago, the McCosh Infirmary opened its doors to support the health and well-being of Princeton students. That original building cost $340,000 and of the 1,500 donors to that building fund, over 1,300 were women. Today, the Auxiliary to the Isabella McCosh Infirmary is proud to continue its support of the healthcare needs of the Princeton community. If you are receiving this Annual Report, your generosity has been vital to the continued work of the Auxiliary. Thank you!

My name is Dina Brewer and I have the privilege of serving this year as the President of the Auxiliary. This year our Board has accomplished a number of goals, many of which are highlighted in this Annual Report. These include:

**FUNDING:**
- In Fiscal Year 2023, your donations and money from investment income from our various endowment funds have allowed us to provide vital, discretionary, and independent funds to help support the medical clinic, counseling and psychological services, athletic medicine for all students, radiology procedures, travel health planning, physical therapy, nutrition services, health education, and in-patient beds.
- $579,000 (over five years) for the Winter Garden for the new Health Center.
- $50,000 for the Special Needs Fund, which provided up to $300 to students with emergency needs (including insurance co-pays, dental visits, glasses, medical devices, etc.).
- $15,000 for new EKGs to allow cardiac screening for students on site.
- $100,000 for two portable ultrasound devices.

**GOVERNANCE**
The Board reviewed and revised our Constitution and Bylaws to reflect best practices and enable the Board to more effectively partner with Princeton University Health Services. These amendments were approved at the May 2023 Annual Meeting.

**OUTREACH**
Increasing communication with Princeton parents so that they were aware of the healthcare services provided by the University. Each parent received a brochure and letter outlining the services that their student may receive on campus.

**BOARD MEMBERSHIP**
- Outgoing President: A huge thank you to Dorothy Bedford, our outgoing President. We are grateful for her continued wisdom and guidance in the years ahead.
Emeritae Status: We want to acknowledge Sally P. Sword ’81 W48 P76, Marilyn Zawadsky W51 P81 P93 g20 and Marjorie G. Wallace S55 P84 g25 who have collectively served on our Board for over 113 years. The Board has voted that each of them be given Emerita status to reflect the years of service and dedication to our organization.

Honorary President Emerita: We are saddened by the passing in May 2023 of Vivian B. Shapiro S*63 *64 g16 who served on the Board since 1995.

New Board Member: A. Woodney Wachter ’07 S04 was elected to the Board at our May 2023 Annual Meeting. Welcome Woodney and we look forward to working with you!

We also want to extend an invitation to all of our Auxiliary members to join us during Reunions on Thursday, May 23, 2024 at 10:30 a.m. for our Annual Meeting. There is also an Open House to learn more about Princeton University Health Services on Friday, May 24, 2024 from 1:30-3:30 p.m.

Thank you again for supporting the Auxiliary and helping us to sustain the vision of Isabella Guthrie McCosh. Together we are enhancing the quality of student healthcare at Princeton University both now and in the future.

We wish you, your family, and your loved ones a healthy and happy year.

Sincerely,

Dina Brewer ’88 S*90 P22 P22 P24
President of the Auxiliary to the Isabella McCosh Infirmary

FROM PRINCETON UNIVERSITY
PRESIDENT CHRISTOPHER EISBRUBER

President Eisgruber addressed the graduates at commencement and said, “Let your voices rise. Let them rise for equality. Let them rise for the value of diversity. Let them rise for freedom, for justice, and for love among the people of this earth.” President Eisgruber praised students for their “persistence, talent, achievement, values and aspirations.”
UNIVERSITY HEALTH SERVICES REPORT

August 2023

Dear Members of the Auxiliary to the Isabella McCosh Infirmary,

It's always an honor to write our Auxiliary partners with an update, and there is much information to share. Construction of the new Health Center gained momentum, including the Winter Garden funded by the Auxiliary. UHS and Auxiliary leadership are also collaborating with colleagues from Design & Construction, and Advancement, to ensure Isabella McCosh’s contributions and memory, plus those of countless donors, will be memorialized in the new building. Occupancy is planned for the academic year 2024-25.

I offer you some select highlights of this past year.

**UHS Diversity, Equity, and Inclusion (DEI) Committee.** In the Fall of 2021, the UHS DEI Committee was formed and charged with assessing our needs in this area, then developing and implementing a plan that enhances UHS’s capacity to build and support diversity, foster equity, and promote inclusion in areas where growth opportunities have been identified. The DEI Committee serves as a driver of UHS’s efforts among staff, patients, clients, and stakeholders. The Committee contributes to the UHS strategic goal of an exceptional workplace climate. Its members act as ambassadors and trained listeners throughout the organization.

**New Appointments:** Dr. Sasha Steinlight: Director, Athletic Medicine. A UHS Sports Medicine physician since 2010, she tended outpatients, inpatients and covered countless athletic competitions. In her new role, Dr. Steinlight is crafting a fresh vision for athletic medicine services. Dr. Anne Laurita: Director, Health Promotion & Prevention Services. Previously the Program Director of the TigerWell Well-being Initiative, she oversaw large-scale partnerships and initiatives across campus. Dr. Laurita and the HPPS team focus on creating and sustaining healthy learning ecosystems and outcomes.

**Health as an Institutional Priority.** In 2022-23 work on this goal, as specified in the University Trustee’s 2020-25 Strategic Plan, culminated in the Trustees adding to Princeton’s mission statement “a commitment to support and promote the mental and physical well-being of its students, staff, and faculty so that they have a genuine opportunity to thrive and engage fully with the University’s mission of research, teaching, and service.”

**SHARE Advocacy and Title IX-Related Processes.** The SHARE office has partnered with the Office of Gender Equity and Title IX administration to improve the Title IX Alternate Resolution (AR) process, as introduced in 2020. Alternate Resolution is a voluntary, remedies-based process designed to facilitate dispute resolution between a person who has made an allegation of sexual misconduct and the person who is accused of committing this harm. The process has been amended to reduce confusion and expedite resolutions.

**Transgender Health Team.** Since 2017 the UHS has offered gender-affirming health care to students. Specific services and initiatives include implementing gender-affirming hormone services; staff trainings; interdepartmental collaboration when student concerns related to gender identity arise; and addressing and working to enhance coverage under the Student Health Plan. With some recent key appointments, the Transgender Health Team has significantly expanded its capacity and expertise.
Clinical Nutrition. At UHS, we have both a Clinical and Sports Dietitian, who supervise a registered dietitian fellow. These staff provide nutrition care to students, helping them to acquire, build and improve their health and wellness through better nutrition behavior and eating patterns, because good health supports successful academic efforts. The Sports Dietitian offers 1-1 nutrition counseling and medical nutrition therapy, and team talks/education/outreach to 39 teams. In addition, the Sports Dietitian handles supplement safety, setting policy around nutrition care, and overseeing compliance with nutrition-related NCAA rules and regulations.

Quality/Performance Improvement (QPI). UHS continues to advance a multi-year quality improvement initiative. The “Triple Aim” framework, developed by the Institute for Healthcare Improvement (IHI) emphasizes the simultaneous pursuit of three essential goals: enhancing the care experience (including quality and satisfaction), improving the health of populations, and reducing per capita costs of healthcare. Among other elements, Triple Aim tracks utilization data by key health equity groups; and is engaged in a multidisciplinary initiative to achieve Top Performer or Leader status on the biennial Healthcare Equality Index (HEI) survey, sponsored by the Human Rights Campaign Foundation.

Employee Engagement. After the turmoil set off by the COVID pandemic among health care workers, UHS has taken steps to enhance employee engagement, which helps assure high-quality, patient-centered care. The results have been encouraging, with significant improvements observed. UHS has defied national odds by achieving an engagement rate of 67% among its work force, twice the US workforce figure of 31%, reflecting our commitment to a supportive and growth-oriented work environment.

TigerWell Well-being in Learning Spaces Toolkit. Health and well-being are foundational to students’ academic success, and faculty can play a crucial role in shaping learning spaces (e.g., classrooms, labs, advising, etc.) into environments promoting well-being. Under Dr. Anne Laurita, the TigerWell team created a pilot, Princeton-specific Well-being in Learning Spaces Toolkit for faculty and instructors that offers small, specific, actionable changes to educational practices which have the potential for profound positive impacts on students’ well-being and mental health.

I hope these highlights are of interest to you and your members and contributors. None of these activities would be possible without the support of the Auxiliary. UHS’s partnership with the Auxiliary is an historic and treasured one, and we are excited about our future together.

Fond Regards,

Janet Finnie ’84 P22 MBA MSW
Director, University Health Services

**FROM UNIVERSITY HEALTH SERVICES**

**EXECUTIVE DIRECTOR, DR. JOHN KOLLIGIAN**

“F or our students, the world that lies ahead will demand much of them and what they have learned inside and outside of classrooms. We look ahead and try to emerge stronger to face whatever the future holds.”
RECENT AUXILIARY PROJECTS

The current multi-year commitment (out of certain endowment accounts) to fund the Winter Garden component of the new UHS building limits our ability to entertain new UHS requests until 2024. Stuart and Hibben Funds income plus annual contributions remain available to us. Nevertheless, your previous gifts and the Auxiliary’s on-going commitments continue to benefit students and provide UHS support in real time.

Counseling and Psychological Services. The Auxiliary currently funds “Proto-call,” which provides access after-hours to certified behavioral health professionals via telephone. It supplements McCosh Health Center’s 24/7 on-call counseling staff. Proto-Call is available world-wide (multi-year commitment).

We provided pilot funding for “Kognito At-Risk for Students,” an on-line behavioral health awareness education/coaching program. Now funded by the University, it became a required element of FYRE (First Year Residential Education).

Special Needs Fund. In 2023, the Auxiliary contributed $50,000 to the Special Needs Fund, which provided up to $300 to students with emergency needs including insurance co-pays, dental visits, glasses, medical devices, etc.

Lab Fees. Most lab fees are now covered by students’ insurance, but The Auxiliary continues to pay for point-of-care testing and certain tests of a sensitive nature.

Athletic Medicine. Therapeutic Hot/Cold Spa Tub replacement. In November 2016, the spa tub in the athletic trainers’ suite (Caldwell Field House) broke down for good. This loss was material to students’ rehabilitation progress. The cost of a new tub was $150,000, which the administration apportioned among Facilities, the Athletic Department and UHS. On short notice, UHS was able to count on The Auxiliary for its share. The tub installed is a twin spa (hot and cold). A cold tub is a key element of treating emergent exertional heat illness, a dangerous and not uncommon ailment during pre-season practices held in August.

Technology Support. In 2023, The Auxiliary provided $100,000 to purchase two portable ultrasound devices and supplies. We also contributed $15,000 for three EKG machines to allow cardiac screening for students on site.

Infirmary/Inpatient Amenities. In keeping with the times, we purchased bedside lamps with USB ports to charge students’ cellphones and other devices, and replaced window treatments.

Volunteer Program. Typically, The Auxiliary provides on-campus assistance to the staff at University Health Services. We greet and direct students, faculty and staff at the annual FluFest, where thousands are immunized. We organize and host the Health Center Open House at Reunions.
