of students currently renting scooters. Monroe Medical will also let Princeton’s DRM know when the rented scooter is returned. Thefts or losses of scooters should be reported to Public Safety at (609) 258-1000 in the same manner as any other theft or loss of property on campus. You should also notify Monroe Medical at (800) 750-6699 immediately.

You will be responsible for the cost of replacing a lost or stolen scooter. Monroe Medical does not offer insurance with your rental. You may wish to consult your parent or guardian to determine if the scooter could be covered by their homeowner’s or renter’s insurance in the event of loss or theft. Alternatively, if scooter is lost or stolen, some credit card companies may reimburse you (if the loss meets certain criteria).

If none of these safeguards apply, and you have to pay out of pocket to replace a lost or stolen scooter, Monroe Medical will offer you a 15% discount on the cost of replacement. As noted above, your scooter rental agreement is between you and Monroe Medical. Princeton is not a party to this agreement and will not be responsible for covering the cost of purchasing a replacement scooter if yours is lost or stolen or vandalized.

Department of Public Safety (DPS) availability for health-related transports

The Department of Public Safety (DPS) provides emergency medical response to campus. As part of this responsibility, DPS assists the University community 24/7 year-round with transports to UHS for acute medical issues and arranges for ambulance transportation when in an officer’s opinion the person cannot be transported by a regular vehicle or when the individual is not eligible (not affiliated) to be seen at UHS. DPS does not generally provide transportation for other reasons, including on-going temporary medical conditions. Non-scooter options include using the University bus transportation system (information available at www.princeton.edu/transportation). Please note that campus call responses e.g. medical emergencies, incidents, etc. take priority over non-urgent transports so delays are possible.

Where can I obtain a scooter?

You may rent a scooter from any vendor, however, Monroe Medical Supplies has agreed to work with Princeton University students to facilitate the rental process. If you choose to rent from Monroe Medical, the contact information is as follows:

Monroe Medical Supplies, Inc.
2715 Route 130 South
Cranbury, NJ 08512
609-395-7500 732-521-4600
800-750-6699
www.MonroeMedicalSupplies.com
Hours: Mon-Fri 9:30 am – 6:00 pm
Sat 10:00 am – 4:00 pm
What types of scooters are available?

There are a variety of scooters available. Monroe Medical can discuss options with you. Some models of scooters run on batteries that can be removed from the scooter and charged in a dorm room. You are strongly encouraged to rent this type of scooter. If you do have to rent a scooter that does not have a removable battery, the scooter will need to be charged outside at receptacles located around campus.

Monroe is able to supply scooters with reflective tape, lights, an attachment for crutches, a basket for a backpack, and a cover for protection from the elements as needed. Please check your scooter to make sure these items are provided with your rental.

Scooters are not motor vehicles. They are akin to pedestrians or motorized wheelchairs. Scooters may be driven into classrooms if the classroom is accessible.

About your Rental Agreement

Your rental arrangement is made directly with Monroe Medical. Princeton University is not a party to your rental agreement. It is your responsibility to address any problems, issues or concerns regarding this rental arrangement, including, but not limited to, theft, loss, damage, need for repair, or vandalism, directly with Monroe Medical.

Monroe Medical can provide you with information about rental fees. It is your responsibility to understand your financial obligations when renting a scooter. Direct any questions you have about rental fees to Monroe Medical.

Delivery and Storage

Monroe Medical will deliver your rented scooter to campus and pick it up once you no longer need it.

You may store your scooter in your room if you live on the first floor of a dorm or in a dorm with elevator access to upper floors. If you do not live on the first floor or in an elevator building, be aware that you may NOT park the scooter in hallways or stairwells.

If you live in a residential college, you may also speak with your DSL regarding other options for scooter storage. Upperclass students can contact Dean Bryant Blount if they do not live in a residential college for assistance in determining whether alternative appropriate storage space is available.

If no space is available, you will need to park it outside the building not blocking ingress or egress, remove the battery, and bring the battery and the ignition key with you to prohibit theft. The scooters do not have a lock, but require a key to turn on.

Graduate students may contact Dean Lily Secora to discuss any concerns regarding scooter storage.

Scooters are not to be stored in areas of ingress or egress.

What if my scooter is lost or stolen?

Your scooter will be registered to assist you and Monroe Medical in locating a scooter if misplaced. Each scooter will have a number on it. Monroe will send an email with your name and the vehicle number to the Department of Risk Management (DRM) who maintains an ongoing list.
